• Dates and Locations •

Oct. 14-17 • Nov. 11-14, 2004

The first two sessions of this five-session course are in sunny San Diego at the Holiday Inn Express Old Town, 3900 Old Town Avenue, in walking distance of over 150 restaurants, plus interesting shops, museums and historical sites. Includes free breakfast, airport shuttle, parking and local calls. Rooms have refrigerators, microwaves, high speed internet access, coffee makers, hair dryers and irons. A heated pool, sauna and whirlpool will help you unwind after class.

Conference rates: \$109 single or double. Reserve by Sept. 14 for session 1 and by Oct. 11 for session 2 at (800) 451-9846 or (619) 299-7400. From San Diego International Airport, take Holiday Inn's free shuttle, a taxi (about \$11) or Amtrak shuttle (619-239-9021). A good place to bring the family.

January 27-30 • March 3-6 • April 28-May 1

For the last three sessions in 2005 we move to Old Town Pasadena at the Old Pasadena Courtyard by Marriott, 180 N. Fair Oaks Avenue, close to scores of lively restaurants and charming shops. There are many cultural attractions in the area, including museums, gardens and more. See www.oldpasadena.com. The Marriott offers a heated pool and hot tub. Rooms have high speed internet access, coffee makers, hair dryers and irons.

Conference rates: \$94 single or \$104 for two queens. Reserve by December 16 for session 3, January 20 for session 4 and March 17 for session 5: call (800) 321-2211 or (626) 403-7600. Take Super Shuttle (800-258-3826) from Los Angeles Intl. Airport (\$25) or Burbank Airport (\$19). See you there!

Hours: Thursday to Saturdays from 9 to 5:30, Sundays 8 to 1 • Total C.E. = 130 hours

Looking for new tools for tough cases? Make THIS the year you take

THE ANHC PROFESSIONAL COURSE IN

Veterinary Homeopathy

San Diego and Pasadena, Calif. • October 2004 to May 2005

with Richard Pitcairn, DVM, PhD and Associates

Are you looking for a new approach to challenging cases?

Would you like to help problems that drugs don't touch — like stunted growth and inherited disease? Would you like an answer for clients asking for alternatives to suppressive drugs and invasive surgeries? Would you like to understand health and disease at a deeper level?

Homeopathy can answer all these needs and more. Based upon a remarkably sensible and scientific paradigm that addresses patients as a *whole*, this time-tested therapy offers exciting insights about the underlying dynamics of health and disease. Better yet, it works!

You are invited on an exciting journey to learn this ingenious and time-tested medical paradigm in the 5-session *ANHC Professional Course in Veterinary Homeopathy*, starting this October in San Diego. **Richard H. Pitcairn, DVM, PhD**, considered the foremost veterinary homeopath in the U.S., is the primary instructor (sessions 1, 3 & 5). Author of the best-selling *Complete Guide to Natural*

Health for Dogs and Cats, he has practiced homeopathy since 1980 and taught it steadily since 1985. Expertly assisted by other highly qualified colleagues (sessions 2 & 4) the 2004 faculty will offer a broad and exceptional background of experience and knowledge.

What You'll Learn. Getting the right start is essential in homeopathy and you will receive a strong foundation in its guiding principles, not always adequately covered in shorter programs. Through lecture, discussion, readings and homework exercises you will learn how to:

- conduct an in-depth initial interview and exam,
- choose the reference books, based on experience, that will best guide you in choosing prescriptions,
- select the best potency and treatment schedules,
- obtain, administer and store the medicines,

- interpret patient responses (palliation, suppression or cure), an eye-opening approach that will help you better understand ALL your cases,
- decide on follow-up prescriptions and
- develop case strategies.

We also offer practice tips helpful for homeopathy, such as appropriate ways to keep records, bill for your time, handle emergencies and make efficient use of staff, phones, mentors and the internet. We will also introduce you to computer programs to help streamline your choice of medicines.

When you finish, you can expect to have the skills you need to treat and cure cases, provided you attend all sessions, complete homework and study assignments and begin to work with patients *during the course*. With growing experience and study, you will work towards the goal of becoming increasingly skillful and efficient, with most follow-up appointments taking 15 minutes or less.

For continued learning, ANHC periodically offers a three-session Advanced Course, in addition to an annual meeting for graduates and an on-line forum and a case consultation service. *The Academy of Veterinary Homeopathy*, a professional organization which accredits this course towards certification, offers students a 1-year free membership, a journal, a mentor program and an annual conference. See www.theAVH.org. We also support the class in getting to know each other and staying in touch.

• **For more information or to register call toll-free at (888) 290-8454.** Dr. Pitcairn and staff are happy to answer questions, send you an information packet and suggest books, tapes and websites to help you learn more about homeopathy. Hot to trot? For this and more check out: www.drpitcairn.com.

What Colleagues Say...

"I studied and 'practiced' on my own for hundreds of hours before taking the course. I learned more and became more effective in my prescribing after one session than ever before."

— Jeff Feinman, VMD

"This is a profound and wonderful course. Although I have studied homeopathy before and came into the course with a love of homeopathy, and a devotion to it, I learned so much more in depth understanding of the application of homeopathic principles and about the accuracy of prescribing. My cases have been much more successfully treated since even the first session than ever before."

— Rachel Blackmer, DVM

"I loved the course. I haven't been this excited about practice in a long time!" — Francie Rubin, DVM

"I am absolutely overwhelmed at the possibilities homeopathy has opened up for me in terms of fulfillment as a healer and of healing as an art. Also, Richard is a rare and gifted teacher." — Rebecca Coleman, DVM

"It is the best course I've ever taken since vet school. It is the most vitalizing, exciting field I've ever been interested in. Homeopathy has filled in all the missing pieces of my practice puzzle." — Douglas Yearout, DVM

"This course is exceptionally well-organized and taught. I cannot imagine calling myself a holistic practitioner without knowing homeopathy. It is the ultimate in understanding health, disease and healing." — Fay Witherell, DVM

"This was a superb course...I feel like I've advanced years beyond my former prescribing ability and understanding of homeopathy." — Jan Facinelli, DVM

"I have attended quite a few homeopathy courses and so far Dr. Pitcairn is the finest instructor I have found...the best able to elucidate homeopathic philosophy in a manner that makes all its other aspects comprehensible."

— David Penney, DVM

"This is what veterinary medicine is really about. This is why many of us chose this profession in the first place."

— Tsin Yen Ling, DVM

"I found the course very worthwhile, having just taken a human homeopathy course, which I felt I got little out of. In comparison to the human course, I feel very much more comfortable to take cases, and have, with a great deal more success."

— John Haromy, DVM

"I never expected to have such a profoundly enriching and fun educational experience.. Thank you for showing us a way to heal that we can practice with joy and conviction."

— Anne Hermans, DVM

"It was spiritually uplifting for me and transformational — I am forever changed by it...the most important course of my professional life." — Henry Kostecki, DVM

"I feel like I had been blindfolded before I came to this course. It brought a new perspective to my way of practicing, made it more effective and enjoyable...I wish more people took this course. They are not aware of what they are missing. It virtually changed my life." — Peter Dobias, DVM
